

BOSSCODER
ACADEMY

— MASTER — PYTHON

BASIC → INTERMEDIATE

In Just 15 Days

Disclaimer

Everyone learns uniquely.

What matters is developing the problem solving ability to solve new problems.

This Doc will help you with the same.

INTRODUCTION AND SETUP

Aim

Get acquainted with Python and set up the development environment.

Resources

- Python Official Documentation:
<https://www.python.org/doc/>
- Codecademy Python Course:
<https://www.codecademy.com/learn/learn-python-3>

Example Questions

Q 1: Write a Python program to print "Hello, World!"

Q 2: Calculate the sum of two numbers entered by the user.

Q 3: Convert temperature from Celsius to Fahrenheit.
